

I decided to go with a Wedding planner because it is a very elegant service and i find it very interesting, it is a very clean business and not that common. It helps a lot of people have better wedding days, which is usually the most important day of their lives.

I used Figma to showcase my work since i find its closest to the actual implementation.

I was inspired by many websites, one of which i found really pretty and intersting :

<https://ericairwin.com/services/>

This is the home page, this where the website lands if you click on the Wedding tab on the navbar its gonna take you to Frame 8 which is the wedding packs and services.

If you scroll down in the footer, if you click on Opening hours its gonna take you to Frame 7, thats gonna show you the hours and holidays.

If you click on Speak to a consultant its gonna take you to Frame 9 thats going to navigate you into booking an appointment .
